WEB DEVELOPMENT EXPERIENCE

General Assembly | Web Developer In Training | May 2018 - Aug 2018

- Trained in a wide variety of programing languages in a 12 week, 500+ hour immersive program.
- Covered both front-end and back-end development skills from basic fundamentals to best practices.
- Created full stack web applications both individually and with a group.
- Learned and became very familiar with Git/GitHub and version control.

Featured Project: Joke Book

- Built an entire front end client using Javascript, jQuery, HTML and CSS.
- The app client uses a full API though Ruby on Rails thats uses a one-to-many table system. Authenticates users and creates, shows, updates, and deletes jokes that the user can input into the app.

ADDITIONAL WORK EXPERIENCE:

VERIZON WIRELESS |Solutions Manager | Aug 2015 - Jun 2018

- Responsible for managing and maintaining a Verizon Wireless location including a brand new Smart Store location in North Attleboro MA.
- Manage a team of 16 Solutions Specialist to help reach and exceed sales goals, doing side by side selling with those Solutions Specialists with customers in the stores and making sure they were motivated and excited to hit the ground running each day.
- Perform opening and closing operations including cash management, inventory audits, conduct conference calls, morning and afternoon specialist huddles and setting daily and weekly sales goals.
